

FireShield Lithium Battery Fire Extinguisher

Product Specification Sheet

FireShield

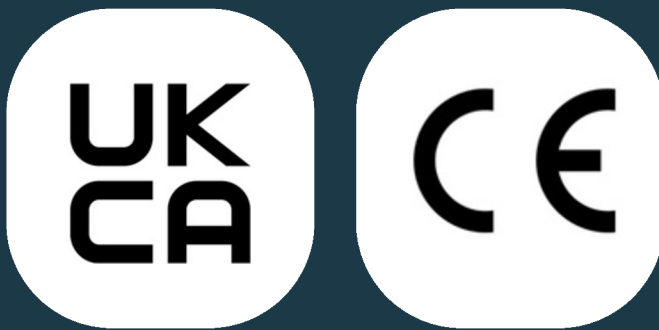

Key Features

- UKCA / CE approved
- Manufactured to BS6165:2002
- Passed 35kv conductivity test
- Supplied with durable plastic polypropylene bracket
- Aerosol factory sealed extinguisher
- Minimal maintenance required
- Aluminium lightweight body
- Controlled discharge
- 3 year warranty

The FireShield 500ml aerosol extinguisher is designed to tackle lithium-ion battery fires in devices like phones, laptops, and e-scooters. Compact and easy to use, it's ideal for homes, offices, workshops, and retail spaces, where lithium-powered devices are common. Ensures quick response and reduces the risk of re-ignition.

Technical Specifications

Specifications	FSLITHS001/001
Capacity	500ml
Fire Rating	N/A
Extinguishing Medium	AD-Li
Working Pressure	18 Bar
Temperature Range	+5°C - +50°C
Cylinder Material	Aluminium
Discharge Time	≥10 seconds
Height	291mm
Diameter	66mm
Weight	1.02kg
