- "Multi-disc" system provides stability for different sized cylinders
- Draws attention to the location of fire extinguishers
- Supplied complete with fire point sticker
- Manufactured in UK

UK CA   CE

The FireShield Fire Extinguisher Plinths offer a stable, free-standing solution for positioning extinguishers without wall mounting.

Available in single and double options, choose between red or grey, they accommodate all extinguisher types from 3ltr/4kg to 9ltr/9kg, including 2kg CO_2 units.

Ideal for use in offices, shops, and temporary buildings.

Single FireShield Extinguisher Plinth provides a stable, free-standing base for one extinguisher, eliminating the need for wall mounting. Choose between red/grey.

Double FireShield Extinguisher Plinth provides a stable, free-standing base for two extinguishers, eliminating the need for wall mounting. Choose between red/grey.
