

FireShield High Back P Handle Sack Truck

Product Specification Sheet

FireShield

Key Features

- P-handle design for easy lifting, pushing, and pulling
- High back for large parcels; ideal for deliveries, warehouses, and moving furniture or appliances
- Large toe plate and 10" x 3.5" pneumatic wheels for rough terrain
- Smooth wheel rotation with roller bearings
- Split pins secure wheels for added safety
- Single handle allows one-handed operation for door access or load control

Built for durability, this powder-coated sack truck resists rust and chipping. The P-handle and angled grip make lifting and maneuvering easier, while the high back supports larger loads up to 550lb/250kg.

Fitted with pneumatic wheels for use on varied terrain, it's a great-value, industrial-quality solution. Ideal for one-handed operation when opening doors or steadying loads.

Technical Specifications

Product Code	SAKTR01/001
Capacity	250kg
Height	1310mm
Width	460mm
Depth	550mm
Weight	10.5kg
Wheel Diameter	250mm
Wheel Thickness	89mm
Tyre Type	Pneumatic
Loading Plate Depth	220mm
